

# What's in a Name?

Buffaloes aren't really buffaloes at all. They're bison – a whole different animal. And **Maine Drilling & Blasting crews don't travel from Maine every morning to work on your project.** Our founder named us Maine Drilling & Blasting, just **because we started in Maine over 40 years ago.** But rest assured, our people are local. They live and work in neighborhoods just like yours all over the Northeast. So, if you've got rock, please **don't get hung up on a name.** The buffalo doesn't.
